Disclaimer

This information is provided for illustration purposes only and the results are based on the accuracy of information provided. Any calculations made by this calculator are intended to be used as a guide only. It does not constitute an offer of finance. As this is only a guide, it is suggested that you contact a Young Motors representative to obtain a more accurate quote. Any approved loan will be provided by UDC Finance Limited. Your application is subject to UDC's credit approval process and lending criteria. Additional fees and charges may apply. Young Motors and UDC will not store the information provided in this calculator. Young Motors and UDC do not accept any responsibility for any loss, costs, or liability directly or indirectly incurred by persons who rely on any amount calculated by this calculator.

IFRAME RE-SIZER

The iframe calculator has support for the iframe re-sizer built into it.

This is a tool that allows the frame and your website to work together in a more seamless manner.

The iframe re-sizer is a one time implementation and will need to be implemented by your web team.

You can find out more about the re-sizer below

WE'VE KEPT THINGS SIMPLE TO USE THE RE-SIZER:

1. Download the latest iframe resizer library from here: <https://github.com/davidjbradshaw/iframe-resizer>
2. Host the iframe resizer js library on your site so that you can refer to it.
3. Implement your code provided on page 4 onto your website!

RECOMMENDATIONS AND TIPS

- The calculator is intended to compliment the finance section on your website and helps show customers that their next vehicle is achievable with finance. It's important to give the calculator context on the page, by providing information which outlines what your vehicle finance offering is.
- As it's an interactive tool the calculator doesn't need to be front and centre on your webpage. However it works best, and gets more use, when it's positioned where customers can see it easily. We've found that the calculator has a high usage rate on our website just below the information which outlines our car loan offering, where it is able to be seen without needing to scroll down the page. We aim to encourage customers to try the calculator, as it can make a them more comfortable with financing.
- Signposting vehicle pages and other sections of your website with CTA's to the finance section of your website is a good way to direct customers to the calculator and your finance offering. This can be as simple as having a link on a vehicle information page that says "See the weekly cost for this vehicle"
- We've set up the calculator with the functionality to customise its colours so that it suits your website. We encourage you to use this feature. The calculator can be customized to any colours you like, all we require are the HEX codes for the specific colours. Your website team should be able to provide these.
- The calculator is responsive and will re-size itself to a height and width that you set on your website. We do recommend that the height of the calculator is at least 900px so that a user does not need to scroll within the frame to see the repayment amounts and disclaimer.
- Recommended width is at least 400px to have all text legible.

YOUNG MOTORS FINANCE CALCULATOR

Here is the unique calculator code for your website, this will need to be implemented onto your website by your website administrator:

```
<script src="/js/jquery-1.12.0.min.js"></script> <!--You do not need to add this jquery-1.12.0.min.js to your website if it is already present ---!>
```

```
<!--[if lte IE 8]>
```

```
<script type="text/javascript" src="https://udc.co.nz/s/ie8.polyfills.min.js"></script>
```

```
<![endif]-->
```

```
<script type="text/javascript" src="https://udc.co.nz/js/iframeResizer.min.js"></script>
```

```
<!--The above scripts can also be hosted on your own website ---!>
```

```
<iframe frameborder="0" scrolling="no" src="https://www.udc.co.nz/udc-calc-iframe-new?dealer=youngmotors" width="100%" height="100%"></iframe>
```

```
<script type="text/javascript">
```

```
iframeResize({
```

```
    log: 'true' }, '#dealer-iframe');
```

```
</script>
```
